The authors wish to make the following correction to this paper [1]: The author name "Luis Miguel Novoa-Sanchez" should be "Luis Miguel Silva-Novoa Sanchez".

There is one inaccuracy in this article [1]. The fifth sentence in the second paragraph on page 4, "Sociotechnical tinkering helps not only to reveal ..., but it also provides a chance to a priori define and decide where or what agency is, or where ... " should be "Sociotechnical tinkering helps not only to reveal ..., but it also provides a chance to study where or what agency is, or where ... ".

The authors would like to apologize for any inconvenience caused to the readers by these changes.
